

## SpeedWatch Report for 18 May 2026 RSPC Meeting

- A session was conducted on 30 April 2026 at the A425 Lewis Road junction at 09.00. A total of 203 vehicles' speed was detected and 4 speeders recorded and reported. One chap sailed past us at 40 mph totally oblivious to our presence (or he couldn't care less). The traffic is heavy at that time of the morning which acts as a limiting factor. We generally detect many more speeders when the traffic is lighter giving a greater opportunity to exceed the speed limit.
- On this occasion, there were four of us in the team as we were joined by our newest recruit.
- I have been informed that our Police contact (responsible for coordinating SpeedWatch in the Warwickshire area) Gary Strain is retiring and will be replaced by a gentleman named Simon Skipp. No further information is available at the time of writing this report.

Councillor Roger W Munn
