

SpeedWatch Report for 30 March 2026 RSPC Meeting

- The session scheduled for 04 March was cancelled just before the planned starting time as it was discovered that temporary traffic lights had been erected on the A425. This prevented conducting a meaningful session at either of the A425 designated sites. We considered operating on Offchurch Lane, but this site was also compromised by building work.
- A further session was scheduled for 09.15 on 18 March on the A425 Kingshurst junction. We registered the speed of 200 vehicles and detected three speeders which have been reported. We received several gestures of support, and no adverse gestures were noted.
- Two Councillors (Mrs J Malin and myself) and a further member of our SpeedWatch team attended the SpeedWatch event held at the Old Shire Hall, Warwick on 19 February 2026. The PowerPoint notes of the presentation were subsequently circulated to Councillors and published on the RSPC website.
- There is to be a WRE Councillors' Meeting on 23 March 2026. Councillor Jack Dempsey plans to be in attendance.

Councillor Roger W Munn
