

SpeedWatch Report for 26 October 2026 RSPC Meeting

- Since the last report, we have conducted two sessions at the roadside on the Kinghurst A425 junction now that the A425 roadworks seem to have been completed and the weather has returned to what passes for normal.
- As mentioned in the last report, two of our members have retired owing to health issues. Their efforts as founder members have been recognised by way of a letter of thanks and appreciation from a senior officer in the Road Safety Unit of Warwickshire Police. The letter was delivered personally by PCSO Ed King and Simon Skipp, the road safety officer. They have also received messages of thanks and well wishes from team members.
- A face-to-face meeting is planned to take place between myself and Simon Skipp (the gentleman replacing the previous road safety officer, Gary Strain, who has retired) this coming Wednesday afternoon 21 October 2026. Topics for discussion include:
 - Assessing the location at which teams should stand when operating at the A425/Lewis Road junction as the current location causes a visual obstruction to motorists turning out of Lewis Road.
 - The new Data Recording Sheet (with which I have some issues).
 - Updating risk assessments and site locations.
 - Evaluating new proposals regarding site locations
 - The “old chestnut” regarding monitoring 20 mph zones
 - A formal approach to reporting motorists displaying threatening or abusive behaviour (thankfully a rare event).

Councillor Roger W Munn
